2. HP supply type\* select "Large HP printhead assemblies & 3D printheads"
3. Return method\* select "Order boxes"
4. Quantity of boxes\* - type in number required. Note that boxes will be shipped to and from your site for free.
5. Fill in your contact information
6. May HP contact you?\* select "Yes" or "No"
7. Check "I'm not a robot"
8. Click on submit

## EMEA

1. Go to [www.hp.com/recycle](http://www.hp.com/recycle), select your country and click on "3D supplies" for recycling your end of life HP 3D600/710 printhead and/or HP 3D 400/450 agent cartridges. Note that boxes will be shipped to and from your site for free.
2. Login if you are a registered user if prompted. Registration is not mandatory but recommended.
3. Click on "Recycle Now" under the business segment that matches your profile (SMB or Enterprise/Public Sector).
4. In the "Bulk Returns" section, select the appropriate service option based on your needs
  - a. box delivery, or
  - b. box collection, or
  - c. box collection + delivery.
5. Based on your previous selection, define the type and quantity of boxes to be delivered to your premises under the HP Inkjet cartridges section, and /or the type of and quantity of boxes to be collected from your premises.
6. Enter your contact and address details (not necessary if you are a registered user and have logged in).
7. Review and confirm the details of your order.
8. Review the key user instructions in the order confirmation page. A message with the same content is also sent to your email address.
9. Applicable to customers in France and Spain only
  - a. For box collection orders, follow the instructions in the order confirmation page/email and call UPS to schedule your collection. Review the key user instructions in the order confirmation page (also included in your order confirmation email).
  - b. Print your UPS collection label and affix it to your box prior to the arrival of the courier.

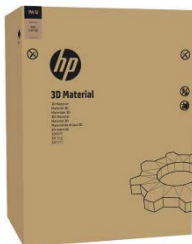

## Other regions

Please contact HP through [sustainability@hp.com](mailto:sustainability@hp.com) for instructions on a take back and recycling program of your 3D consumables.
