

HP Planet Partners Programme for Supplies EMEA (PPP)

JOIN US FOR A SUSTAINABLE FUTURE

When recycling your empty
Original HP and Samsung cartridges,
you help protect the environment.

DISCOVER THE BENEFITS OF HP PLANET PARTNERS

- ✓ Our return service for your empty Original HP ink and toner and Samsung toner cartridges for recycling is **free and easy**.
- ✓ You can **reduce your environmental footprint**, save resources and help bring products back to life.
- ✓ **Individual certificates** help corporate customers prove their sustainable efforts with.

You can choose from **different return options** fitting every need – no matter if you are consumer, a small and medium business, or an enterprise and public-sector customer:

Individual returns: Return few cartridges with printed postage-paid labels or ordered postage-paid envelopes.

Bulk returns: Use collection boxes – delivery and pick-up of the boxes are included and can be ordered online.

Resellers/retailers: Hand your cartridges over to an HP reseller or retailer

For a minimum return of 1,500 toner or 15,000 ink cartridges per year, we have a **Premium Bulk Service**. Please contact us for more details.

CLOSE THE LOOP WITH PPP

When recycling your HP and Samsung cartridges via PPP, you help protect our planet. All returned cartridges go through a multiphase recycling process in which materials are refined for use in new Original HP cartridges and everyday products. HP makes sure that no cartridge returned via PPP ends up in a landfill. Today, more than 80% of HP ink and 100% of HP toner cartridges contain recycled materials.¹

HP's recycling achievements 2018 (Jan to Dec) in numbers

4,025 tonnes
of HP toner cartridges have been recycled in EMEA

175 tonnes
of HP ink cartridges have been recycled in EMEA

RECYCLE WITH THE PEOPLE IN MIND

HP's sustainable commitment goes beyond environmental protection. Our social involvement within PPP takes on many forms – for example:

- ✓ In **Haiti**, HP fosters an initiative to collect empty plastic bottles – and help Haitians raise their living standards. Together with other recycled plastic from HP cartridges, the empty bottles are used to create new Original HP ink cartridges.
- ✓ The staff of US-based company **Homeboy** helps disassemble end-of-life products delivered by HP. This cooperation creates job opportunities for people who face employment barriers and offers life-skills training and free social services. And, recovered material is also used in our closed-loop recycling process.
- ✓ In the **UAE**, HP partners with **Dubai Cares**. For every empty HP ink cartridge returned via PPP in the UAE, HP donates Dh5 to provide quality education for children around the world.

NOW IT'S UP TO YOU!
